CUT TIME & LABOR COSTS WITH THE **SHINGLE SHEAR**™

**MEASURE AND CUT SHINGLES
IN LESS THAN 5 SECONDS!**

SHINGLE SHEAR makes cutting all types of fiberglass and asphalt shingles fast, easy and accurate.

First row starters can be cut lengthwise using the rip fence with 5", 7", 7 $\frac{5}{8}$ ", 9 $\frac{1}{2}$ " or 10" positions.

DESIGNED FOR ROOFTOP USE

- Rubber feet allow the cutter to be placed directly on a roof of 6/12 pitch or less.

- ▲ A flip up roof hook allows the cutter to be used on steep pitched roofs.

- ▲ Guard design allows for slide through cutting.

- ▲ **SHINGLE SHEAR** has an inlaid tape measure and an angle guide that make straight cuts or valley and hip cuts quick and easy.

SHINGLE SHEAR™

weighs only
16 pounds!

The slide-in-scale makes the **SHINGLE SHEAR** easy to transport and store.

Durable aluminum construction makes **SHINGLE SHEAR** very lightweight and easy to handle.

Blades are easily sharpened and low cost replacement blades are available.
